1. The first group of people who are interested in the study of the history of the world are the historians. They are the people who study the past and write about it. They are the people who tell us what happened in the past and why it happened. They are the people who help us to understand the world and ourselves.

My father was born in Russia and came to America in 1880. He was a tailor by trade and worked for many years in the garment industry. He was married to my mother, who was born in Poland. They had four children, three of whom are now deceased. I was the youngest child and was born in 1895. My father died in 1910 and my mother died in 1920. I was raised in the Bronx, New York, and attended public school. I was married in 1915 and have two children, a son and a daughter. I am now living in the Bronx, New York.

The image is a very low-contrast, high-contrast scan of a document. It appears to be a technical drawing or a map, featuring a grid of lines. On the left side, there is a vertical line with several small, dark, irregular shapes along it, possibly representing a coastline or a series of data points. The rest of the page is mostly blank, with some faint, illegible markings and a few small, dark spots. The overall quality is poor, with significant noise and low contrast.
